

## GUIDELINES FOR MIXED DRINKS

1. No shots or straight spirits/liquors/alcohol will be served and must be mixed in a cocktail type beverage. Attempting to circumvent this restriction by offering a separate chaser will not be allowed.
2. Serving size must be 6 fl. oz. or greater in size, and a 6 fl. oz. serving size must include only liquids.
3. Based on a 6 fl. oz. serving, the spirit/alcohol or the use of several spirits will NOT contain more than a total volume of 0.75 fl. Oz. of 80-proof spirits (hard liquor – whiskey, brandy, gin, rum, vodka, tequila, ouzo, sljivo, etc.)
4. Whatever mixed drink is served, it should be robust enough that in normal circumstances would take at least 10 minutes to consume, thus the 6 fl. oz. minimum.
5. Ice and solid material such as fruit chunks, vegetables, etc. may not be considered as part of the 6 fl. oz. serving. Ice and solid material may be added but cannot be included in the 6 fl. oz. serving size.
6. Regular rules continue to apply:
  - a. Alcohol used must be germane to the country/countries represented by the participating organization and be of a type of cocktail served in the country/countries represented.
  - b. No glass containers are allowed outside the booth.
  - c. Wristbands must be worn to purchase or consume mixed drinks.
